Materials Tester NDT (m/f/x)

We are looking for a materials tester NDT (m/f/x) for our sites in **Crimmitschau, Erfurt, Leipzig, Chemnitz and in the Lusatia region.**

Your tasks:

- Testing various components in the automotive, steel construction, plant engineering, energy generation and aviation sectors
- Non-destructive testing (analogue and digital radiographic testing/conventional or phased array ultrasonic testing/surface crack testing/mobile hardness testing/RFA material analysis)

Our requirements:

- Ideally, you are a qualified materials tester, but lateral entrants with a technical qualification are also welcome.

Your attributes:

- Personality with a strong service focus, responsibility and motivation
- Ability to work in a team and strong communication skills
- Willingness to participate in ongoing training and development
- An independent, precise and correct work method
- Analytical mindset
- Own a driving licence

We provide:

- An exciting job that presents new and diverse challenges every day
- An open-ended employment contract
- Development and advancement opportunities
- Regular training and development
- Numerous social offers and additional benefits

Interested? Then we look forward to receiving your application.
